The Proposition 65 List Declaration

Dear Sir or Madam,

The listed products in the attached table do not contain Hexavalent Chromium (Cr VI), Polybrominated Biphenyls (PBB), Polybrominated Diphenyl Ethers (PBDE), or any of the restricted phthalates (DEHP, BBP, DBP and DIBP).

As indicated in the attached table, the listed products may contain Lead (Pb), Mercury (Hg) and Cadmium (Cd). Lead is present in the form of lead oxide (PbO), which is incorporated into the glass layers of the sensor element.

According to Figure 7(c)-I of the Annex to Directive 2011/65/EU, the use of lead in glass of electronic components is exempt from the requirements of Article 4(1) of Directive 2011/65/EU and Directive (EU) 2015/863.

The concentrations of the substances identified in the attached table are below the applicable regulatory concentration limits.

Kind regards,

Luis Bombonatti

Commercial, Technological and Industrial Director
